ONC's New Proposed Rule

The Next Step to Advancing the Care Continuum Through Technology and Interoperability

On April 11, 2023, the ONC released a notice of proposed rulemaking titled, "Health Data, Technology, and Interoperability: Certification Program Updates, Algorithm Transparency, and Information Sharing" also known as "HTI-1". To view more information on the proposed rule, please click [here](#).

Electronic Case Report (eCR) in North Dakota

NDHIN continues to work closely with the North Dakota Department of Health & Human Services (NDHHS) to assist facilities with eCR implementation.

We encourage facilities to review available eCR resources on the NDHHS website by clicking [here](#). For more information or questions regarding eCR, please contact Rachel Goble at rgoble@nd.gov.

NDHIN's New Electronic Authorized User Agreement (eAUA) Process Is Now Live!

NDHIN has sent communication and education to granting authorities for each participant location.

eAUA creates a streamlined process eliminating the need for the manual process of emailing and scanning of documents. The NDHIN encourages you to watch the short demonstration of the new eAUA process. We are hoping to reduce any confusion that may result with the transition. [Watch the video here!](#)

Please start using the new eAUA process when your site becomes accustomed to the new workflow. If you have questions or concerns, please feel free to contact us. The eAUA process will fully transition **June 1, 2023**, and will no longer accept the manual forms after that time.
